Orchestrations**

We are delighted to present our latest instrumental and vocal charts, carefully graded from student to professional levels and with full scores.

Our publications range from music for amateur swing band and also small band titles, to some tremendous big band jazz and Latin charts as recorded by Woody Herman, Count Basie and Tito Puente.

We also have augmented big band vocal charts with full strings and woodwind featuring titles from Robbie Williams' million selling *Live at the Albert* DVD.

Our aim is to inspire and challenge musicians at every level.

The two CD's with this catalogue include recordings we have commissioned of our actual published charts.

From classic jazz, swing and vibrant Latin to the latest rock titles.

The excitement starts here.....

Cy Payne is one of the UK's most versatile arrangers, with over 50 years' experience of writing and directing for many leading recording artists, West End shows, films and TV. He has also written for top military bands, including the massed bands for the Trooping of the Colour.

For 10 years he has directed the Downham Market Swing Orchestra, a mixed ability amateur band. We have selected a few of his arrangements for our *Swing Band Series*, which are just right for school bands where limited brass ranges are particularly important.
